CP 8 RESIDUES IN OR ON TREATED PRODUCTS, FOOD OR FEED

The product PPB WG 70 is a WG (water-dispersible granules) formulation containing 700 g/kg of propineb.

The uses of the product PPB WG 70 on apple, grape and tomato are the representative uses supported in the Annex II dossier for propineb renewal.

Please refer to document M section KCA 6 of the propineb renewal dossier where all relevant metabolism and residue data in support of these uses are summarized.

Based on the available information on propineb, it can be concluded that the use of the formulation PPB WG 70 on apple, grape and tomato - according to the supported GAPs / use patterns - is unlikely to present a public health concern.
