Document Title
List of additional safety relevant studies
Submitted to EFSA as individual studies
and not described in our summary documents
for
mesosulfuron-methyl

Date
2018-06-28

Bayer Crop Science Division
Additional studies submitted to EFSA:
List of safety relevant documents
for mesosulfuron-methyl

OWNERSHIP STATEMENT

This document, the data contained in it and copyright therein are owned by Bayer and/or affiliated entities.
No part of the document or any information contained therein may be disclosed to any third party without the prior written authorisation of Bayer and/or affiliated entities.

The summaries and evaluations contained in this document are based on unpublished proprietary data submitted for the purpose of the assessment undertaken by the regulatory authority. Other registration authorities should not grant, amend, or renew a registration on the basis of the summaries and evaluation of unpublished proprietary data contained in this document unless they have received the data on which the summaries and evaluation are based, either:

- From Bayer or respective affiliate;
- From other applicants once the period of data protection has expired.

Any distribution, reproduction or publication requires the consent of Bayer AG (or its respective affiliate).
Any use of the document or its content for regulatory or any other commercial purpose is prohibited and constitutes a violation of the underlying license agreement.
